Subject: FW: E-intro Anyplace MD and Harris County Public Health

I am forwarding information below that came out of a teleconference I had yesterday with the Mobile Healthcare Association regarding the use of mobile units in COVID-19 response.

The conversation quickly became dominated by this organization (Anyplace MD) who stated that they were meeting yesterday with Governor Abbott about rolling this out State-wide. They made some very interesting statements during the teleconference, which they reiterate below, "We are the FEMA designated Covid response team for Hays County and will soon likely also be for Harris, Bexar, Uvalde, Williamson and Travis Counties."

I asked that they please send any available information, which I am forwarding here. Perhaps those on distribution were already aware of this company but I wanted to make sure if not.

Thanks for the introduction and very close. I graduated from Columbia university for med school and did an immunology fellowship at Harvard and was on faculty there before starting the immunology division at MIT's hospital. I'm happy to show you our Covid remote monitoring program and integrated in home testing linked to machine vision and telemedicine.

What distinguishes us is that we have in app step by step instructions for home testing for strep, flu, uti and covid to keep folks from spreading illness or contracting it linked to machine vision for autocapture, interpretation to server, and every test reviewed by telemedicine provider and assessment provided.

We are very committed to the whole Texas population but also first responders, government employees, the military and all of those working tirelessly to help others even when we aren't in a pandemic.

We are the FEMA designated Covid response team for Hays County and will soon likely also be for Harris, Bexar, Uvalde, Williamson and Travis Counties. We are attaching our letters from the FEMA director of Hays County, Judge Ruben Berra, and the letter he drafted to customs for us as well. See below.

I apologized for not sending out sooner. I know times are so busy for everyone!

I still have one more call tonight. I probably misspoke today. We are approved to move forward with testing. No one had FDA approval because no one was prepared for COVID-19. I am going to even send Gerald the email that went to Dr. Deborah Birx to move forward that helped with the FDA ruling on March 16th. Anyone that can be tested WITHOUT being in contact with the Medical Provider is a WIN/Win. 50,000 tests will be released by the FDA tomorrow in Chicago and then 1,000,000 have been paid for and should be shipped tomorrow from China to our Company within a week. 500,000 of these tests were utilized in China which slowed up the progression immensely. We have been working with the Director of the Telehealth for Military and we are moving forward with them. HEB sends out the tests, so you can get them after you present with symptom through the APP at the Drive through of HEB.

We are offering our 4 Mobile Trailers and 2 DSVs to the State to set up drive through locations to pick up tests, supplies and whatever else is needed in our State.

God Bless everyone on their programs and stay safe! Elizabeth, I will send you a clean email with other attachments. Dr. Legere will be happy to hop on your call with Harvard next week. He is an Infectious Disease Physician that went to Medical School at Harvard. He has been running this company for Flu, Strep and UTIs with AI through smart phones for 4 years.

Thanks,
Deb

I just called Labib and all three emails have bounced. He is sending his personal email. He is at a testing site this evening and said tomorrow morning would be so much better for him.

I will forward to him. Do you have a time in the morning?
He wants to do a Zoom call and actually see a demonstration, so I will send invite. Let me know the time!
Thanks,
Deb

3rd time is a charm Labib! Please read the entire chain down! We have been trying to reach out! It was great to speak to you today!

Dr. Hank, Labib is pretty high up at the County I just learned. Gerald forwarded all the information yesterday to Labib! He needs to see if he can do a conference call if today at all possible to see the testing would work. I will send him the videos, but need to see a presentation similar to Military last Monday. I know you are running wide open, but Labib needs to present 3 options by end of day tomorrow.

Thanks,
Deb

Labib,

So great to hear from you. I am going to call you directly in just a bit! I am still running our Audiology Practices, but needed to close those down for a few weeks because not EMERGENT. This is EMERGENT and so exciting.

We had signed a teaming agreement with Reliant Immune Diagnostics and MD BOX. **Dr Hank Legere** went to Medical School at Columbia and then did a Fellowship in Infectious Disease at Harvard and then ran the ID Program at MIT. **Shane Stevens** has run many Companies...most which have served the Military and Government contracts. Shane and I have worked together for over 18 months building business. **The two of them are a FORCE to be recognized! This JV has the most incredible potential, it makes Altus Healthcare and ZT Wealth's potential look dwarfed compared to this!**

The bottom line is we can help Harris County with COVID-19 testing with 15 minute capillary blood testing at home with Telehealth and an AI component that will read the tests with Computer Vision. Simple as that. We are waiting for 50,000 FDA tests that were release but currently being reviewed by the FDA before releasing to us. But just ordered 500,000 more.

Dr. Hank, not only is brilliant, but humble. I will ask him to send you his information.

So great to hear from you ! Will call in a bit!
