Hello LMC,

Thank you for reaching out with your concern. There is no project planned to turn the African-American Home Economics Building into a restroom. The description in the Capital Improvements Program (CIP) document is *Stabilize historic Dunbar education building to ensure public safety. Further research on possible grants, group fundraising, and/or County participation for further funding sources. Future facility use is undetermined at this time.*

The project has approved funding in the amount of \$25,000 included in the current year's (FY21) debt sale for initial assessment. Future funding is identified in future years (FY22-FY24). The following link takes you to a webpage with the current CIP for 2021-2030 and the proposed plan under consideration for 2022-2031: <http://sanmarcostx.gov/366/10-Year-Capital-Improvements-Plan>.

At last week's Historic Preservation Commission meeting, there was discussion about this topic initiated by a citizen who heard we were turning the school building into restrooms. They spoke during the citizen comment period. There was also a resolution recommendation for that building on the agenda where the subject came up again, but staff was not given a chance to speak on the subject.

Thank you again for reaching out,

Hayden

I have looked thru all the agendas and I do not see word one of HPC and the Dunbar situation w/the CIP.

THIS MEANS LAURIE MOYER IS A BOLD FACE LIAR

At the CIP - she says EXPEDITE AND "WE ARE WORKING WITH THE HPC"

"and have a path forward" what for the poop to go into the sewage Laurie please advise if i am incorrect that you are a bold faced liar and provide me the proof HPC was contacted.
