Hello LMC,

The previous CIP description for the Dunbar Education Building was inadvertently used in the backup for Item 30 in tomorrow evening's agenda authorizing the sale of the bonds. The Ordinance itself lists the general projects and categories for the CO proceeds. Staff has updated the wording on the backup table to reflect the current CIP Plan so that the description reads:

Stabilize historic Dunbar education building to ensure public safety. Further research on possible grants, group fundraising, and/or County participation for further funding sources. Future facility use is undetermined at this time.

The packet is being updated and the updated table begins on page 956 (updated description on page 957).

We have also shared this information with the Dunbar Heritage Association.

Thank you,

Hayden
