Shannon Carr
Outreach Program
First Baptist Church NBC
420 South Mitchell Street
San Marcos, TX 78666

Dear Ms. Carr:

It is my pleasure as always to write a letter in support of the Outreach Ministry program at First Baptist Church NBC. As your neighbor, we are equally excited to support you with a letter in your efforts to expand your programming activities to meet the needs of more of the underserved individuals in your area. We commend you in your tireless effort to attract phenomenal volunteers and in-kind contributions from your worship community and surrounding neighbors. An now, the time has come to seek other means to supplement your programming budget, because donating funds fall short and create challenges in continuity of service delivery. This impacts communities in need, and disrupts their ability to maintain continuity of care and stability.

Submitting an application for financial assistance to the City of San Marcos signals to us that you are ready to scale-up your service operations and begin to address more indepth mental health issues, support groups to assist with the stressors of our time (COVID-19), and an improved menu of food choices to insure better health and wellbeing outcomes for underserved individuals and families in San Marcos.

In conclusion, I fully support the efforts of the First Baptist Church NBC– Outreach Program. As you continue to seek external funding to expand and support a program designed to bridge gaps, restore health and wellbeing in the lives of people, who live in the margins in San Marcos, any program that can help an individual and families make better decisions about their mental and physical health, will impact and improve the wellbeing of San Marcos communities overall.

Sincerely,

Rev. Lea Walker-Clark
